

Part V. Some tentative conclusions	289
Part VI. Liability for environmental damage and the Institute of International Law: re-affirmation of the preventive approach	291
Part VII. Civil liability regimes	294
1. Introductory	294
2. Some examples of civil liability regimes in relation to particular fields	296
(a) Nuclear damage	296
(b) Oil pollution	298
3. Assessment of civil liability regimes	301
4. The Lugano Convention	302
5. Question of civil liability in some international conventions	303
Chapter VI. Human rights and the environment — right to a clean environment	305
Part I. General survey of the human right to a clean environment	305
1. Issues relating to the nature and existence of a right to a clean environment	305
2. Recent attention to the issue	309
3. Right to a clean environment in national constitutions	312
4. Right to a clean environment in relation to other human rights	313
5. International conventions	313
6. Substantive and procedural rights	314
Part II. Jurisprudence of tribunals in relation to a human right to a clean environment	315
1. The European Court of Human Rights	315
(a) Introductory	315
(b) <i>The Lopez-Ostra case</i>	318
(c) <i>Balmer-Shafroth and Others v. Switzerland</i>	320
(d) <i>Guerra and Others v. Italy</i>	324
Part III. The Aarhus Convention	326
Some conclusions	328
Part IV. Animal rights	329
Part V. Conclusions on a human right to a clean environment	330
Chapter VII. Environmental dispute avoidance and settlement	336
Part I. Introductory — dispute settlement versus dispute avoidance	336
Part II. Dispute avoidance mechanisms	338
1. General survey	338
2. Particular dispute avoidance mechanisms	341
(a) Consultation	341
(b) Monitoring	343
(c) Reporting	344
(d) Reporting system under the Kyoto Protocol	345
(e) Hybrid mechanisms	346
Part III. Non-compliance mechanisms	346
1. What is a non-compliance mechanism	346
2. Features of non-compliance systems	350
3. The interrelation between non-compliance procedures and dispute settlement mechanisms	351
Generally and the study of the Montreal Protocol	351

Part IV. The International Court of Justice and the settlement of environmental disputes	362
1. General aspects and history of the Court's involvement with environmental matters	362
The Environmental Chamber	363
The issue of a special international body to adjudicate environmental matters	365
Part V. Jurisprudence of the International Court of Justice, in particular environmental cases	368
1. Contentious cases	368
(a) <i>Nuclear Tests</i> cases	368
(b) <i>Gabčíkovo-Nagymaros</i> case	378
2. Advisory opinions — <i>Nuclear Weapons</i> case	385
(a) General issues: admissibility of advisory opinions	385
(b) The environmental issues	387
Part VI. Some remarks on the possible broadening of the scope of the ICJ's jurisdiction	394
Part VII. Other possible forums of environmental dispute settlement and avoidance	401
1. NAFTA and the North American Agreement on Environmental Co-operation (NAAEC)	401
Dispute resolution under the North American Free Trade Agreement (NAFTA, Chapter 20) and in the North American Agreement on Environmental Co-operation (NAAEC, Part Five)	403
2. International Tribunal for the Law of the Sea (ITLOS)	404
3. The participation of civil society in dispute avoidance and dispute resolution	407
4. Dispute avoidance — NAAEC	408
5. Dispute resolution — the Nordic Convention and the NAFTA	409
6. The United Nations Compensation Commission (UNCC)	413
Part VIII. Conclusions on dispute settlement and avoidance	416
Chapter VIII. Case studies to illustrate the practical and theoretical problems of contemporary international environmental law	420
Case I. The protection of the ozone layer	420
Case II. Water resource co-operation	428
Part 1. Some general principles	428
1. Introduction	428
2. General background: theories relating to the utilization of international watercourses	432
(a) The absolute sovereignty theory (the "Harmon Doctrine")	432
(b) The theory of absolute territorial integrity	433
(c) The community of interests theory	433
3. The principle of equitable utilization	434
4. International watercourse as a "shared resource"	440
5. Procedural obligations	442
The protection of the watercourse environment	445
Part 2. Particular case studies	446
1. Effective water resource co-operation — the Nordic States	446
2. The conflict in water resource co-operation — the Middle East: the Jordan River	455
Conclusions on case studies	462
Selected bibliography	468

Chapter III. The developments of new concepts and principles	150
Part I. Common heritage of mankind (CHM)	150
Part II. The doctrine of common concern	161
Part III. The doctrine of common interest	163
Protection of global commons	165
Part IV. Intergenerational equity	186
The <i>Oposa</i> case	193
Other manifestations of the doctrine of inter-generational equity	197
Part V. Conclusions	201
Chapter IV. Responsibility for environmental damage. 1: State responsibility	203
Part I. Introductory	203
Part II. State responsibility for environmental damage <i>ex delicto</i>	204
1. Introductory	204
2. The material breach of treaty obligations	205
The type of treaty obligations which were breached, conditions of employment of different remedies	205
3. State responsibility for material breaches and countermeasures	209
The VCLT and the ILC Articles on State responsibility	209
4. Circumstances precluding wrongfulness	214
Circumstances precluding wrongfulness in the <i>Gabčíkovo-Nagy-maros</i> case	215
Consequences of breach of obligation under State responsibility <i>ex delicto</i>	217
Cessation of a wrongful act	219
5. Some other problems relating to State responsibility <i>ex delicto</i>	220
(a) Primary/secondary norms	220
(b) The conditions for State responsibility	221
(c) Absolute obligations, fault, due diligence	222
(d) The problem of damage (harm)	225
(e) Harm, damage, adverse effects and damage valuation	227
The establishment of environmental damage	230
(f) The causal link	232
Part III. Responsibility for environmental damage: liability for environmental <i>sine delicto</i>	232
1. Introductory	232
2. The ILC "liability" drafts	233
3. The ILC "prevention" draft (International Liability for Injurious Consequences arising out of Acts Not Prohibited by International Law — Prevention of Transboundary Damage from Hazardous Activities)	244
4. Some reflection on the principle of prevention as envisaged by the ILC	254
Chapter V. Some general principles of the modern approach to environmental protection — the elements of preventive approach	259
Part I. The precautionary principle	259
Part II. Environmental Impact Assessment	280
Part III. Polluter-pays principle	285
Part IV. Due diligence	287

TABLE OF CONTENTS

Chapter I. General introduction and historical survey	21
Part I. Introduction	21
Part II. General survey	22
1. The definition of the environment	22
2. Historical background — growing awareness of the need of environmental regulation	27
(a) First period	28
(i) Protection of fauna and flora	28
(ii) Water pollution	30
(iii) Important arbitrations	30
(b) Second period	31
(c) Third period — the 1972 Stockholm Conference on Human Environment	33
(d) Fourth period — from Stockholm to Rio	35
(i) The Rio Declaration	40
(ii) Fourth period, post Rio: "Earth Summit + 5"	44
Part III. Problems of modern protection of the environment: the South-North dialogue	47
1. The concept of sustainable development	47
2. The principle of common but differentiated responsibility	64
3. Special mechanisms (financial and legal) to breach the gap between North and South	68
(a) Financial mechanisms	68
(i) Introductory	68
(ii) The World Bank group	70
(iii) Other global financial arrangements	80
Chapter II. International environmental law: sources, formation and kinds of legal rules	96
Part I. Introductory	96
Part II. The sources of international environmental law	98
1. Treaties	98
2. Customary international law	105
3. General principles of law	116
4. Subsidiary sources of international environmental law	122
(a) Judicial decisions	122
(b) Writings of jurists	123
Part III. Soft law	123
1. What is "soft law"	123
2. Effects of soft law	128
3. Conclusions	132
Part IV. The problem of norms <i>jus cogens</i> and international crimes in relation to environmental law	132
1. <i>Jus cogens</i>	132
2. International crimes and environmental protection	144
